PRESIDENT'S CORNER

Dan Mohrman
dpm7457@bjc.org

Thanks to the outstanding efforts of our Education Committee, the attendance, at our educational programs held across Missouri, is at an all-time high. These programs provide an opportunity to expand your technical knowledge and to hear from industry experts of the changing conditions of the future of healthcare environment.

Our MOSHE website has been expanded to include timely updates on a recent Joint Commission surveys. This program will provide current and pertinent information as to the Joint Commission areas of concentration. The availability to directly contact hospital facilities managers to discuss data format and life safety "hot spots" will provide proactive insight for preparation for future surveys.

This year's golf tournament and educational session at the Innsbrook Resort and Conference Center, on September 23rd, has completely sold out all team sponsors but there are still some function sponsors available. For more information on the function sponsors contact either Fred Waldrop or Barbara Warneke. Fred Waldrop and a select committee provided an advanced investigation of the condition of the course and reports that the greens are in excellent shape.

The MHA's 91st Annual Convention and Trade Show at Tan-Tar-A Resort on November 6th-8th, 2013, offers an opportunity to hear national speakers who will present their views of the ever changing future of healthcare.

The 2013 ASHE Annual Conference and Technical Exhibition will be in Atlanta later this month on July 21st -24th. As always the conference will provide programs for improvements for operations, codes & standards, planning, design and construction and certification preparations.

Certification programs in Healthcare Facilities Commission (HFCX) in Chicago in August and Healthcare Construction (HCC) in Boston in October. These programs enhance the professional development and further understanding of these critical components of hospital post construction hospital management.

These are opportunities to expand our knowledge and therefore to prepare ourselves and our hospitals, for a diversity of challenges is a sound investment of our time. If you have any questions about becoming more active in MOSHE or joining ASHE, please let me know.

Dan is also planning on visiting hospital facilities throughout the State of Missouri to discuss the benefits of joining and being an active member in MOSHE the last two weeks in July and the first week of August.

Dan is also looking into opportunities of sharing cost saving benefits for hospitals that are members of MOSHE. This will be shared with MOSHE members later this year.

COMMUNICATIONS

Martin Grabanski, Chairman
MGrabanski@crmc.org

The website has been updated with our new Platinum recognition from ASHE - GREAT JOB EVERYONE!.

We are encouraging all MOSHE members who have not yet joined ASHE to please do. We must maintain a 25% of ASHE/MOSHE membership to keep our status. As MOSHE continues to grow, it is more and more critical to maintain our ASHE affiliations.

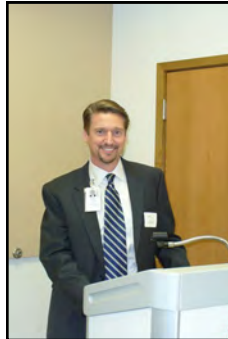

We have set up a link to one of our Sister Chapters, SICHE in Southern Illinois, on our site. If you get a chance, check it out. They have a lot of positive activity and we are excited to be working together with them. Some of the other recent changes to our site has been adding the password protection to all education programs as they are posted on our site. The password is the same as our Membership access.

We are working with the Membership Committee, looking for ways to improve and recruit more of the rural hospitals in Missouri. More information on this will be announced in the future.
