PRESIDENT'S CORNER

Mike Bock
michael_bock@ssmhc.com

As President for 2016, I want to thank Doug Ruble, 2015 MOSHE President, for his leadership over the last year. It takes time away from our daily responsibilities and a real commitment to continue the legacy MOSHE has been known for in recent years. Thank you Doug.

This chapter continues to set the bar high for all other chapters across the country. This is only achieved through the many volunteers, dedication and commitment to excellence we enjoy in our membership. I want to thank the MOSHE Board of Directors and the all the Committee Chairs and Co-Chairs for their leadership as well. It takes every one of us to be successful. In 2015, MOSHE once again received the ASHE Platinum Award for accomplishments in 2014 recognizing the chapter as a high performance ASHE Affiliate that

represents the mission and objectives of ASHE. Another testimony to the work of everyone serving this chapter.

I would like to encourage more of my peers to get involved in ASHE's Energy to Care program. It is a great resource to comparing energy consumption to other facilities with the hope of looking to the high performing facilities to reduce our operating cost. As we are all challenged to do more with less, this is just one more resource to help us achieve additional savings. We are off to another great start this year with our high quality educational event calendar. We had our Joint program with SICHE earlier this month at St. Elisabeth Hospital in Belleville, Illinois, which was well attended. It was a great overview of all the certifications that are offered through AHA/ASHE. I encourage you to go to our MOSHE website (www.mosheonline.org) to check out any of the educational programs if you were unable to attend. We try to post all of the presentations for the benefit of membership.

I would like to thank you all for allowing me to serve as President of MOSHE in 2016. It is an honor and a privilege to serve as MOSHE President and I will do my best to continue the legacy of what I believe is one of the best chapters in the States. One of my primary objectives in 2016 will be to encourage more participation in the Energy to Care program. As we continue the journey to updating our states regulations, I want to thank Brad Taylor, Director—Building Services, St. Anthony's Medical Center, St. Louis; and our ASHE Region 8 Board Representative for all his support and commitment to our Region and improving Healthcare. Brad has been instrumental in helping move the legislation forward to adopt the FGI Guidelines as a reference and updating the DOH Regulations. We will be asking for a few more volunteers in the coming months to help rewrite the regulations we have to live with here in our great state. We are hoping to get this completed this year. More to come on this.

In closing if I can be of any assistance to you please let me know. I hope to see you all at our educational programs in the coming months

Mike L. Bock S.M.A., CHFM
2016 MOSHE President
Director Facilities
SSM Health St. Mary's Hospital Jefferson City

MOSHE is dedicated to improving the quality of healthcare in Missouri through the professional development of individuals in the supporting and allied fields.

MOSHE is composed of healthcare support personnel from the finest facilities all over the state of Missouri. With members statewide and numerous associate members, we are a concentrated membership of professionals supporting facilities and operations for the delivery of quality healthcare.
